### **PRODUCT FEATURES**

#### **BUILT TO ENDURE**

Premium 1.2mm thick, 304 Grade Stainless Steel creates a surface highly resistant to stains, rust and corrosion.

#### SOUND ABSORPTION

Noise suppression pads are applied to all external areas of the sink to dampen water impact noise during use.

#### THOUGHTFULLY DESIGNED

A rear waste results in less pipe intrusion into the cupboards underneath allowing for more storage space, while a 10mm corner radius and folded drainage points limit build up in the sink to ensure easy cleaning.

#### **COLOUR AND PROTECTION**

A special PVD coating provides the sink with its distinctive colour and a NANO SHIELD coating increases durability and aids in prolonging the finish.
